## **UB-5310 / UB-5315 / UB-5815 / UB-7325**

- Integrated Printer prints files from the Panaboard or your PC
- Built-in USB port provides simple plug and play connectivity for easy operation
- File Document Management System software easily archives, retrieves and disseminates your meeting notes
- Can be wall-mounted or used with mobile floor stand

**Panasonic ideas for life**

### PC Interface

### Panasonic Document Management System

Panasonic Panaboard UB-5310, UB-5315, UB-5815 and UB-7325 models come standard with Document Manager and Document Viewer utility software. Meeting content that appears on the Panaboard screen can become your meeting minutes with notes through the Document Viewer feature. Using Document Manager, you can quickly and easily file and distribute the meeting minutes by converting the file into any one of these common electronic file formats, BMP, TIFF, JPG, PNG and PDF.

The scanned image is monochrome. The annotation feature is used to add colored text.

### Printer Driver

Panaboards can also work as a PC printer. If you need to print documents during a meeting, the Built-in Plug & Play USB port makes it easy to print out your documents right from the Panaboard.

### TWAIN Driver

With just one click, you can scan the image on the Panaboard screen as image data to your computer. You can also control the Panaboard operation right from your computer.
